

REFeree REPORT FORM FOR PAPER (Sample)

HETEROCYCLES An International Journal for Reviews and Communications in Heterocyclic Chemistry
Copyright © 2012 The Japan Institute of Heterocyclic Chemistry

Please answer the following Referee Report Form regarding the Manuscript.

● English level

How high is the English level in this paper?

● Importance, Significance

How would you evaluate the importance and significance of the research paper?

● Novelty

Does the research paper provide or illustrate novelty?

● Originality, Speciality

How would you grade the originality and speciality of the paper?

● Development

What are the prospectives for further development of the present research?

● Practical application

To which level can practical application be expected?

● Generality & Scope

Is the research interesting to non specialists, with sufficient generality and scope?

● Fragmentation

Has any fragment of the research been submitted to another Journal?

● Experimental aspects / Experimental level

Were experiments carried out accurately, with carefull attention to detail?

● Products

Have the chemical structures been identified precisely?

● Reference

Are the references appropriate in accordance with the Journal?
